

Among the declared objectives of the Centre of Criminology is the organization of periodic seminars and conferences of short duration with the aim of providing opportunities for the exchange of ideas and information between members of the Centre and persons outside the University who by reason of their qualifications and practical experience can contribute much to the effective functioning of the Centre; at the same time, refreshing their training and bringing themselves up-to-date on national and international developments in the field of criminology.

It is hoped, by this series of lectures, to contribute to the accomplishment of this objective.

J. LL. J. EDWARDS
Director
Centre of Criminology
